

REMARKS

THE SPECIFICATION

Amended pages 22, 34 and 35 are provided. These amendments are submitted to correct an obvious clerical error. On original PCT page 22, it can be seen that Extenders 4, 5 and 6 are simply the same Extenders already defined to be Extenders 1, 2 and 3.

Accordingly, reference to "Extenders 4, 5 and 6" are deleted from page 22 as well as from page 34. On page 35, they are replaced, each place they occur, by reference to "Extender 1, 2 or 3", respectively. This is done to clarify and simplify those pages. Please enter these newly amended pages.

THE CLAIMS

Claim 1 is based on the previous PCT application claim 7 and the limit for component B)(a) density of "at least 0.855 and equal to or less than 0.899 g/cm³" is found at page 11, line 6 of the specification.

Claim 2 finds basis in previous claim 8 of the PCT application.

Claim 3 finds basis in previous claim 9 of the PCT application.

Claim 4 finds basis in previous claim 2 of the PCT application.

Claim 5 finds basis in previous claim 4 of the PCT application.

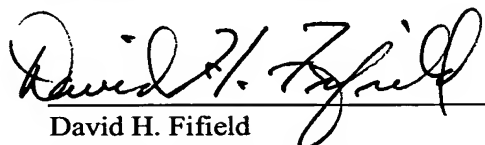

Claim 6 finds basis in previous claim 6 of the PCT application.

Claim 7 finds basis in previous claim 1 of the PCT application.

Claim 8 finds basis at page 19, line 20 through page 20, line 9 of the specification.

Claim 9 finds basis in previous claim 6 of the PCT application.

Respectfully submitted,

David H. Fifield
